**Subject:** RTK Review Property File

RTK Officer,

As we discussed, the attached document will verify that someone purged my property file. The last time that I reviewed it all that was in it was my plot plan.

Prior to the purge, there were several hundreds of pages of documents including but not limited to issues concerning the drainage problem on my property and side yard; correspondence to and from Joe Nolan, Chuck Sardo, Jim Garrity, a report from my expert engineer which I paid for ect. In addition, there were many documents related to the basketball court issue including a petition from my neighbors, correspondence to and from Chuck Sardo regarding late night play, noise, ect. There was also the transcript from the zoning hearing and related documents. There was also documents and correspondence to and from Chuck Sardo regarding my patio and pool. These are just some that I remember.

You told me that you would find out where the documents that were in my property file went and provide them for my review.

Consider this a formal request to review all of the documents that were in my property file prior to it being purged by someone in the Township. See attached "Worcester File Tempting.pdf".

If you could also let me know who purged my file and by who's authority it was purged I would appreciate it.

Thanks

Jim Mollick
